TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

[L. S.]

To the Inhabitants of the Town of Danville, in the County of Rockingham, in said State, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the tenth day of March next, at nine o'clock in the forenoon, to act on the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray Town charges for the ensuing year, and make appropriation for same.
3. To see if the Town will vote to raise and appropriate a sum of money necessary to obtain State Aid for building State road and to decide where to build the same.
4. To see what sum of money the Town will vote to raise and appropriate for the maintenance of the State road.
5. To see what sum of money the Town will vote to raise and appropriate for snow paths.
6. To see what sum of money the Town will vote to raise and appropriate for the Public Library.
7. To see if the Town will vote to raise and appropriate a sum of money to be used in improving the cemeteries.

8. To see if the Town will vote to raise and appropriate a sum of money for the observance of Memorial Day.

9. To see if the Town will vote to authorize the Selectmen to hire money for the use of the Town.

10. To see how much of the Parsonage funds the Town will vote to spend for preaching for the year ensuing.

11. To transact any other business that may legally come before the meeting.

Given under our hands and seal, the 23rd day of February, in the year of our Lord nineteen hundred and thirty-one.

ALFRED B. SARGENT,
MAHLON C. CURRIER,
MAHLON B. DARBE,

Selectmen of Danville.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Danville:

I am herewith privileged to present my fourth annual report as Superintendent of Schools.

YOUR SCHOOLS

The mass of your citizens want good schools. They want every child in your town to have an equal chance with every other child of New Hampshire and other states. Good schools and fair chance are inseparable. As parents you wish adequate schooling for your children, because of the fact that if you have been educated you appreciate its value, and if you have not, you are conscious of its loss. Your desire is that the children shall have sufficient training to meet future requirements.

But what of these requirements? It is difficult to foresee what they may be. Because of rapidly changing standards, people are confronted with situations they could not have foreseen a decade ago. In farming, in industry and in business, as well as in the profession of teaching we find more exacting demands. It is reasonable to predict that requirements in all such lines will continue to be raised. Such is progress.

These changing situations have taxed and challenged the ingenuity of the schools. They have given an accounting. They have demonstrated the wisdom of the investment. If the schools were faced with the task of educating for today alone it would be a sufficiently difficult undertaking. They have the added responsibility of educating for tomorrow.

It is gratifying to state that you have provided, will continue to provide schools adequate to meet the demands. The youth are your greatest assets. You should weigh carefully each problem in the light of the changed situation and determine the really economic procedure to adopt. We hear many times in the course of the year, "Every advantage is none too good for the children".

THE NEW PROGRAM OF STUDIES

To meet the progress in education and life, considerable time has been expended by a large group of prominent educational leaders to revise the program for New Hampshire's schools. The product of their labors is now available and in use. In the main it is fundamentally much of the former program. The new has revised and expanded the old to provide more and better helps for teachers in carrying out their work. Furthermore, it has been framed to more adequately meet the needs of New Hampshire's children in the light of present day conditions. The program itself is but a shell. The expansion of it in the teaching process is the essential item. Through its use we are of the earnest opinion that the children will be benefitted and a nearer approach made to the millennium—perfect education. Never do we believe this goal can be reached but our goal must be high lest we reach under too low a standard.

SCHOOL COSTS

Good schools involve costs. Some say we cannot afford them. Is this true?

We have in mind a man, the head of a family. He has annual bills of \$500 for automobile depreciation, operation and repairs, and \$220 for luxuries such as candy, ice cream, theatres and tobacco. This man, you will agree, was pretty well off.

How much should he be willing to pay for the schooling of his children? If he expended \$90 a year for this purpose would he be giving education too high a place in his scale of values?

Answer these questions as you will. The man described above is really the State of New Hampshire. If you will take the preceding figures and add five zeros to them you will have what New Hampshire pays for three items of expenditures:

Passenger automobiles	\$50,000,000
Certain luxuries	22,000,000
Public education	9,000,000

It is true that many families are not as well off as the one described above. Not all families are able to spend \$500 for automobiles, or \$220 for luxuries. But neither do most families pay nearly as much as \$90 a year for the schooling of their children. Speaking in averages, if a family spends less for the first two items, it spends proportionately less for education. It is the proportion which counts, not the actual amounts spent.

Assume any kind of a family you wish. Take the figures given above and make your own divisions. You will find out that on the average, every time New Hampshire spends a dollar for schools the people of the state spend \$5.55 for passenger automobiles and \$2.44 for a few of our luxuries. Does the cost of schools indicate that New Hampshire places education too high in the scale of values? The same comparisons might be made with income and like results obtained.

Local costs in comparison with other districts offer valuable information. The following table shows the cost to the

districts only of the elementary schools of three state-aided and four non-aided districts chosen at random:

	Per \$1,000 of equal valuation	Per pupil average
Sutton	5.64	144.74
Danville	5.66	63.06
Lee	6.46	84.00
Nashua	5.14	81.14
Henniker	5.91	71.73
Bradford	6.06	96.79
Wolfeboro	7.45	100.28

These costs all cover the same items and you must note Danville's favorable position in the tabulations. The first three towns given have the same number of teachers and about the same valuation while the others are larger and more wealthy districts. This is given to show that Danville is expending no more than others in accordance with its valuation and is offering like opportunities of education with the larger places at much less per pupil cost.

TABLES

Kindly examine the tables which follow. They will give you in statistical form much of the data collected during the last school year. In the attendance statistics, you will note some desirable advances in attendance and tardiness. The latter is steadily on the decline while the former is at 95.18%—just above the state average of 95.5%. I am much pleased at these results. Let us hold them there.

I am very grateful for your loyal and warm support of the schools. Your continued interest and help is a good omen of future gains and progress in beneficial public schools.

Very respectfully submitted,

HAROLD C. BOWLEY,

Superintendent of Schools.
